

# The 37<sup>th</sup> Chinese Control Conference

July 25-27, 2018, Wuhan, China

---

Dear Mr. Bin Shi,

First of all, we would like to express our sincere thanks to you for submitting your paper(s) to the 37<sup>th</sup> Chinese Control Conference (CCC2018). The paper peer review process has now been concluded. It is our pleasure to inform that your paper, indicated below, has been accepted for presentation at and for publication in the proceedings of CCC2018. We invite you to present your paper at the Conference, to be held in Wuhan, China, July 25-27, 2018.

Paper ID: 1906

Title: Time Scaling Transformation in Quantum Optimal Control Computation

Author(s): Bin Shi, Chao Xu, Rebing Wu

This letter serves as the official acceptance of your paper as well as invitation to present your work at CCC2018.

You can log in "TCCT Conference Paper Management System" (<http://cms.amss.ac.cn>) with your PIN and password to view the review comments. Please revise your paper in light of the reviewers' comments and the Associate Editor's summary.

Please note that at least one of the authors is required to make the advance conference registration in order for you to upload the final manuscript, which must be completed by May 20, 2018. The instructions for final submissions and conference registration is available at <http://ccc2018.cug.edu.cn/English/Registration.htm>.

The Conference Final Announcement will be sent to you later, which will provide further information about the final program, conference venue, hotel, etc. Please visit the conference website <http://ccc2018.cug.edu.cn> for further information.

Thanks again for your support to the Chinese Control Conference. We are looking forward to seeing you in Wuhan, China.

Should you have any additional questions, please feel free to contact the conference secretariat.

Sincerely yours,

Xin Chen
